CONFIDENTIAL - FOR INTERNAL USE ONLY

1. 30-Second TL;DR

- CleanSpark secured a \$6.6 billion long-term lease with a confidential global technology company for a data center, validating its sustainable energy strategy.
- The TMT sector shows cautious optimism, with an average EV/EBITDA multiple of 15.5x; software and AI sectors command higher multiples, while telecom and media lag.
- Market dynamics are shaped by technological advancements, regulatory scrutiny, and economic uncertainties, influencing M&A activities.

2. 1-Minute TL;DR

- CleanSpark's \$6.6 billion lease with a high-investment-grade tech company marks a significant step in monetizing its power portfolio, although risks include reliance on a single tenant and market fluctuations.
- The TMT sector is characterized by cautious optimism, with an average EV/EBITDA multiple of 15.5x; software (20.3x) and AI (22.5x) are strong performers, while telecom (9.8x) and media (12.1x) face challenges.
- Key market drivers include technological advancements and robust investment in tech, while headwinds consist of regulatory scrutiny and economic uncertainties, shaping future M&A activities.

3. 2-Minute TL;DR

- CleanSpark's recent \$6.6 billion lease with a confidential global technology company for a data center in Georgia is a strategic move to monetize its sustainable energy portfolio. This long-term commitment supports CleanSpark's growth but poses risks like reliance on a single tenant and market demand fluctuations.
- The TMT sector is navigating a landscape of cautious optimism, with an average EV/EBITDA multiple of 15.5x. High-growth sectors like software (20.3x) and AI (22.5x) are attracting investor interest, while traditional sectors like telecom (9.8x) and media (12.1x) are trading lower due to slower growth prospects.

US TMT Sector M&A & Valuation TLDR - 2026-07-21

US TMT Sector

- Market dynamics are influenced by technological advancements, particularly in AI and cloud computing, alongside increased investment in fintech. However, regulatory scrutiny and economic uncertainties pose challenges to M&A activities.
- Analysts predict continued consolidation in the TMT sector, with a focus on high-growth areas. Investors are advised to prioritize sectors with strong growth potential while monitoring regulatory developments and leveraging technology partnerships to enhance market positioning.
