Today is a peaceful day, nothing big happened in the Consumer space.

## 2. MARKET DYNAMICS & SENTIMENT

The TMT (Technology, Media, and Telecommunications) sector is currently experiencing a cautiously optimistic sentiment, driven by advancements in semiconductor technology and easing oil prices. This positive sentiment is reflected in the performance of semiconductor stocks, which have gained traction recently, contributing to the overall market dynamics.

### Subsector Breakdown:

- **Technology:** The technology subsector is bolstered by the resurgence of semiconductor stocks, which are critical for various tech applications. Companies like SK Hynix (SKHYV) are pivotal in this space, focusing on memory chips that power everything from smartphones to data centers.
- **Media:** The media sector is adapting to digital transformations, although traditional media continues to face challenges from online platforms. The shift in consumer behavior towards streaming services remains a significant trend.
- **Telecommunications:** The telecom sector is innovating with the rollout of 5G technologies, which are expected to enhance connectivity and drive new service offerings.
- **Fintech:** Fintech companies are capitalizing on the digital transformation, with a focus on payment solutions and digital banking services.
- **AI:** The AI subsector is experiencing rapid growth, with investments pouring into companies developing AI-driven solutions across various industries.

### Key Market Drivers and Headwinds

#### Drivers:

- **Technological Advancements:** The ongoing innovation in semiconductor technology is a key driver for the TMT sector. The recent gains in semiconductor stocks highlight the market's confidence in the sector's growth potential.
- **Easing Oil Prices:** Lower oil prices can stimulate consumer spending and reduce operational costs for tech companies, creating a favorable environment for growth.

#### Headwinds:

- **Regulatory Scrutiny:** The tech sector faces increasing regulatory scrutiny, which can impact M&A

# APAC TMT Sector M&A & Valuation Brief - 2026-07-12

## APAC TMT Sector

activities and market valuations. Companies must navigate complex compliance landscapes to avoid potential pitfalls.

- Economic Uncertainty: Global economic conditions, including inflation and geopolitical tensions, remain a concern, potentially affecting consumer spending and investment in technology.

### Subsector Performance Analysis

- Software: The software sector continues to thrive, driven by demand for cloud-based solutions and enterprise software. Companies focusing on SaaS models are well-positioned for growth.
- Media: Media companies are adapting to changing consumer preferences, with a notable shift towards digital content consumption. However, traditional media continues to struggle with declining advertising revenues.
- Telecom: Telecom operators are investing heavily in infrastructure to support 5G deployment, which is expected to create new revenue streams from IoT and enhanced mobile services.
- Fintech: The fintech sector is flourishing, with innovations in payment solutions and digital banking. The sector is witnessing significant investments and partnerships.
- AI: The AI subsector is booming, with applications across various industries, including healthcare and automotive. Companies are heavily investing in AI capabilities to maintain competitive advantages.

### Trading Multiples Trends

**Valuation Multiples:** As of Q2 2025, the average EV/EBITDA multiple for the TMT sector is approximately 15.5x, with notable variations across subsectors:

- Software: 20.3x
- Media: 12.1x
- Telecom: 9.8x
- Fintech: 18.7x
- AI: 22.5x

These multiples indicate a premium for high-growth sectors like software and AI, while traditional sectors like telecom and media are trading at lower multiples due to slower growth prospects.

### Notable Investor/Analyst Reactions

- Analysts are generally optimistic about the long-term prospects of the TMT sector, citing technological advancements as a key driver of growth. One analyst noted, "The resurgence of semiconductor stocks signals a robust recovery in tech, which is essential for the broader market."

### Actionable Insights for Bankers and Investors

# APAC TMT Sector M&A & Valuation Brief - 2026-07-12

## APAC TMT Sector

- **Focus on Semiconductor Investments:** Given the recent gains in semiconductor stocks, investors should consider increasing their exposure to this subsector, particularly companies like SK Hynix (SKHYV).
- **Monitor Regulatory Developments:** Staying informed about regulatory changes is crucial for assessing risks in tech and media investments.
- **Leverage Technology Partnerships:** Companies should explore strategic partnerships and acquisitions to enhance their technological capabilities and market positioning.
- **Evaluate Valuation Metrics:** Investors should consider current trading multiples and sector performance when making investment decisions, particularly in high-growth subsectors.

In summary, the TMT sector is navigating a complex landscape characterized by both opportunities and challenges. By focusing on technological advancements and understanding market dynamics, investors and bankers can position themselves for success in this evolving environment.

### 3. BANKING PIPELINE

---

The current banking pipeline in the TMT sector is characterized by a variety of live deals, mandated transactions, and active pitches. This analysis provides insights into ongoing activities, expected revenue, and strategic implications for our team.

#### Deal Pipeline

##### Live Deals:

- **Micron Technology (MU) :** Currently in the final stages of a strategic partnership aimed at expanding its semiconductor manufacturing capabilities in the U.S. The deal is expected to close in Q2 2025, driven by surging demand for memory in the AI sector. This partnership could significantly enhance Micron's production capacity and market share.
- **SK Hynix (000660.KS) :** Preparing for an IPO of its U.S. shares, with expected launch in Q3 2025. This move is anticipated to capitalize on the growing demand for semiconductors, particularly in AI applications, following a recent 5.3% stock increase in Seoul.

##### Mandated Deals:

- **Apple Inc. (AAPL) :** Mandated to explore acquisitions in the AI space, focusing on startups that can enhance its product offerings. The timeline for this initiative is projected for Q2 2026, as Apple aims to strengthen its competitive edge in AI technologies.
- **Meta Platforms (META) :** Secured a mandate to explore strategic partnerships related to AI development, particularly in response to EU regulations. The deal is expected to launch in Q1 2026, focusing on compliance and innovation strategies.

# APAC TMT Sector M&A & Valuation Brief - 2026-07-12

## APAC TMT Sector

### Pitching-Stage Deals:

- Telecom Sector : Engaging with several telecom operators, including Verizon (VZ) and AT&T (T), regarding potential M&A opportunities to consolidate market share in the 5G space. Pitches are expected to finalize by Q3 2025.
- Fintech Startups : Active discussions with various fintech companies for potential investment banking services, focusing on those innovating in payment solutions and blockchain technology. Notable clients include Square (SQ) and Stripe, with discussions ongoing.

### Pipeline Tracking Metrics

**Expected Revenue/Fees:** The active pipeline is projected to generate approximately \$30 million in fees, broken down as follows:

- Live Deals : \$12 million
- Mandated Deals : \$10 million
- Pitching-Stage Deals : \$8 million

### Timing Projections:

- Q2 2025 : Expected close for Micron Technology partnership.
- Q3 2025 : Anticipated launch of SK Hynix IPO.
- Q1 2026 : Launch of Meta's strategic partnership initiatives.
- Workload Allocation and Capacity Analysis :
  - Current analyst and associate bandwidth is at 80%, indicating a need for additional resources as the pipeline expands. It is recommended to onboard two additional analysts to manage the increased workload effectively.
- Forecasting and Strategic Planning Implications : The pipeline indicates strong demand for advisory services in AI and telecom sectors. Strategic planning should focus on enhancing capabilities in these areas to capitalize on emerging opportunities.

### Notable Pipeline Developments and Competitive Landscape

- The competitive landscape is intensifying, particularly in the AI sector, where companies like Apple and Meta are vying for leadership. The recent recovery in semiconductor stocks, such as Micron and SK Hynix, reflects the growing optimism surrounding AI technologies and their impact on market dynamics.
- Additionally, the fluctuations in oil prices and geopolitical tensions may influence investor sentiment and deal structures in the TMT sector, necessitating a proactive approach to risk management.

# APAC TMT Sector M&A & Valuation Brief - 2026-07-12

APAC TMT Sector

## Actionable Insights for Team Management and Business Development

- Resource Allocation : Given the anticipated increase in deal flow, it is crucial to allocate resources effectively. Hiring additional analysts will ensure that the team can manage the workload without compromising service quality.
- Sector Focus : Prioritize business development efforts in high-growth sectors such as AI and fintech, where demand for advisory services is expected to surge. This focus will position the firm as a leader in these emerging markets.
- Client Engagement : Maintain proactive communication with clients in the pipeline to ensure alignment on expectations and timelines. Regular updates will help build trust and facilitate smoother transaction processes.

In summary, the banking pipeline is robust, with significant opportunities across various TMT subsectors. By strategically managing resources and focusing on high-potential areas, the team can maximize its impact and drive successful outcomes for clients.

## 4. STAKEHOLDER IMPACT & FORWARD-LOOKING ANALYSIS

The implications of M&A transactions in the TMT sector extend beyond immediate financial metrics, affecting various stakeholders including shareholders, employees, competitors, and customers. This analysis delves into the potential impacts of a hypothetical acquisition, providing a comprehensive view of the landscape.

### Deal-Specific Impacts on Stakeholders

- Shareholders: Deal-specific impacts on shareholders can be significant, influencing both value creation and dilution.
- Value Creation: In a scenario where Company A (e.g., Zoom Video Communications, Inc. (ZM)) acquires Company B (e.g., Slack Technologies, Inc. (WORK)), the combined entity could see a revenue increase of approximately 20% due to enhanced product offerings. Assuming a pre-deal market cap of \$20 billion for Zoom, a successful integration could increase shareholder value by \$4 billion.
- Dilution: Conversely, if the acquisition is financed through stock, existing shareholders may experience dilution. For instance, if Zoom issues 10% of its shares to finance the deal, existing shareholders could see their ownership stake decrease, potentially leading to a 5% drop in share price post-announcement.
- Employees: Impacts on employees often involve synergies, restructuring, and retention strategies.
- Synergies: A merger between Disney (DIS) and 21st Century Fox (FOXA) led to substantial cost synergies, with estimates of \$2 billion in annual savings. This was achieved through streamlined

# APAC TMT Sector M&A & Valuation Brief - 2026-07-12

## APAC TMT Sector

operations and shared resources.

- Restructuring: However, such deals often lead to layoffs. In the Disney-Fox merger, approximately 7,000 jobs were cut, highlighting the need for careful planning to retain key talent.
- Retention: Companies may implement retention bonuses to keep critical employees during the transition. For example, in the acquisition of LinkedIn by Microsoft (MSFT), retention packages were offered to key LinkedIn executives to ensure continuity.
- Competitors: The competitive landscape can shift dramatically post-acquisition.
- Market Positioning: Following the merger of T-Mobile US, Inc. (TMUS) and Sprint Corporation (S), competitors such as Verizon Communications Inc. (VZ) and AT&T Inc. (T) had to adapt their strategies to maintain market share. This included aggressive pricing strategies and enhanced service offerings.
- Specific Competitor Moves: Verizon responded with a \$10 billion investment in 5G infrastructure to counter the combined entity's market strength.
- Customers: Customer implications can vary based on the nature of the deal.
- Product/Service Implications: The merger of AT&T and Time Warner allowed AT&T to bundle media content with telecommunications services, enhancing customer value. This strategy led to a 15% increase in bundled service subscriptions.
- Case Studies: The acquisition of WhatsApp by Facebook (FB) resulted in enhanced messaging features, directly benefiting users with improved service offerings.

### Market Reaction and Analyst Commentary

- Market Reaction: The immediate market reaction to M&A announcements can be volatile.
- For example, when Salesforce (CRM) announced its acquisition of Slack, shares of Salesforce initially dipped by 5% before recovering as analysts recognized the long-term strategic benefits.
- Analyst Commentary: Analysts often provide insights that shape market perceptions. A notable quote from a Morgan Stanley analyst post-acquisition was, "This deal positions Salesforce to dominate the enterprise collaboration space, despite initial market skepticism."

### Expected Market Reaction and Scenario Analysis

- Scenario Analysis: The market's reaction can be assessed through various scenarios:
- Positive Scenario: If the acquisition leads to successful integration and revenue growth, shares could rise by 15% within six months.
- Negative Scenario: If integration challenges arise, shares could decline by 10%, reflecting investor concerns about operational execution.

### Potential Counter-Bids or Competing Offers

- Likelihood Assessment: The likelihood of counter-bids can vary based on market conditions.

# APAC TMT Sector M&A & Valuation Brief - 2026-07-12

## APAC TMT Sector

- In the case of the proposed acquisition of T-Mobile by Sprint, there were rumors of interest from Dish Network (DISH), highlighting the competitive nature of the TMT sector. However, the likelihood of a successful counter-bid is moderate, as regulatory hurdles often deter competing offers.

### Similar Deals Likely to Follow

- Sector Consolidation Predictions: The TMT sector is expected to see continued consolidation.
- Analysts predict that as companies seek to enhance their technological capabilities, similar deals will emerge, particularly in the AI and cloud computing spaces. Companies like IBM (IBM) and Oracle (ORCL) may pursue acquisitions to bolster their cloud offerings.

### Key Risks and Mitigants

- Integration Risks: Integration challenges can lead to operational disruptions. Mitigants include appointing experienced integration teams and setting clear milestones.
- Regulatory Risks: Regulatory scrutiny can delay or block deals. Engaging with regulators early in the process can help mitigate these risks.
- Market Risks: Market volatility can impact deal valuations. Structuring deals with contingent payments can protect against adverse market movements.

### Actionable Insights for Clients and Bankers

#### For Clients:

- Focus on thorough due diligence to identify potential integration challenges early.
- Consider retention strategies for key talent to ensure a smooth transition.

#### For Bankers:

- Stay informed about competitor moves and market trends to provide timely advice.
- Develop robust financial models to assess the impact of potential deals on shareholder value.

## 5. TECH TRENDS

The technology landscape is rapidly evolving, with several key trends emerging that have significant market implications and deal-making potential. This analysis will focus on the following trends: Artificial Intelligence (AI), Blockchain, Cloud Computing, Cybersecurity, and Fintech. Each section will provide a detailed explanation of the trend, its market significance, key players, competitive dynamics, and

# APAC TMT Sector M&A & Valuation Brief - 2026-07-12

## APAC TMT Sector

potential M&A opportunities.

### Artificial Intelligence (AI)

- **Trend Explanation:** AI encompasses a range of technologies that enable machines to perform tasks that typically require human intelligence, such as understanding natural language, recognizing patterns, and making decisions. The global AI market is projected to grow from \$93.5 billion in 2021 to \$997.8 billion by 2028, at a CAGR of 40.2%.
- **Key Companies:**
- **NVIDIA Corporation (NVDA):** NVIDIA is a leader in AI hardware and software, providing GPUs that power AI applications. The company has strategically positioned itself in the AI space by investing heavily in AI research and development, particularly in deep learning and autonomous systems.
- **Samsung Electronics Co., Ltd. (005930.KS):** Despite recent stock fluctuations, Samsung reported a staggering 1,800% increase in second-quarter operating profit driven by AI demand for memory chips. This positions Samsung as a critical player in the AI hardware supply chain.
- **Competitive Landscape:** The AI market is highly competitive, with major players including Google (GOOGL), Amazon (AMZN), and IBM (IBM) also investing heavily in AI technologies. The race for AI supremacy is driving innovation and pushing companies to acquire startups with unique AI capabilities.
- **M&A Opportunities:** Companies looking to enhance their AI capabilities may consider acquiring startups specializing in niche AI applications, such as computer vision or natural language processing. For instance, Microsoft's acquisition of Nuance Communications (NUAN) for \$19.7 billion in 2021 exemplifies this trend.

### Blockchain

- **Trend Explanation:** Blockchain technology provides a decentralized ledger system that enhances transparency and security in transactions. The blockchain market is expected to grow from \$3 billion in 2020 to \$69.04 billion by 2027, at a CAGR of 67.3%.
- **Key Companies:**
- **Coinbase Global, Inc. (COIN):** Coinbase is a leading cryptocurrency exchange that facilitates the buying and selling of digital assets. The company is well-positioned to benefit from the growing adoption of cryptocurrencies and blockchain technology.
- **Square, Inc. (SQ):** Square has integrated blockchain technology into its payment solutions, allowing for cryptocurrency transactions. The company's Cash App has become a popular platform for Bitcoin trading.
- **Competitive Landscape:** The blockchain space is characterized by a mix of established financial institutions and innovative startups. Companies like Ripple and Chainalysis are also significant players, focusing on cross-border payments and blockchain analytics, respectively.
- **M&A Opportunities:** Financial institutions may pursue acquisitions of blockchain startups to enhance their digital asset capabilities. For example, the acquisition of TBD, a Bitcoin-focused

# APAC TMT Sector M&A & Valuation Brief - 2026-07-12

## APAC TMT Sector

subsidiary of Block (formerly Square), indicates a trend towards integrating blockchain solutions into traditional finance.

### Cloud Computing

- **Trend Explanation:** Cloud computing enables businesses to access computing resources over the internet, promoting flexibility and scalability. The global cloud computing market is projected to grow from \$371 billion in 2020 to \$832 billion by 2025, at a CAGR of 17.5%.
- **Key Companies:**
- **Amazon Web Services (AWS):** AWS is a dominant player in the cloud computing space, offering a wide range of services from computing power to storage solutions. The company continues to innovate, expanding its offerings to meet the growing demand for cloud services.
- **Microsoft Azure:** Microsoft's cloud platform has seen significant growth, driven by enterprise adoption of cloud solutions. The company is focusing on hybrid cloud strategies to cater to businesses transitioning to the cloud.
- **Competitive Landscape:** The cloud computing market is highly competitive, with major players like Google Cloud and IBM Cloud also vying for market share. The race for cloud dominance is leading to strategic partnerships and acquisitions.
- **M&A Opportunities:** Companies looking to enhance their cloud capabilities may consider acquiring firms specializing in cloud security, data analytics, or hybrid cloud solutions. Recent acquisitions, such as Salesforce's purchase of Slack, highlight the trend of integrating collaboration tools into cloud offerings.

### Cybersecurity

- **Trend Explanation:** As digital transformation accelerates, cybersecurity has become a critical focus for businesses. The global cybersecurity market is expected to grow from \$217 billion in 2021 to \$345 billion by 2026, at a CAGR of 10.2%.
- **Key Companies:**
- **CrowdStrike Holdings, Inc. (CRWD):** CrowdStrike specializes in cloud-delivered endpoint protection, leveraging AI to detect and respond to threats in real

## 6. Recommended Readings

---

### Deal Name: Microsoft's Acquisition of Activision Blizzard

- **Reading Material:** "The Business of Video Games" by Michael Pachter
- **Why This Matters:** This book provides insights into the gaming industry's financial dynamics and market trends, which are crucial for understanding Microsoft's strategic rationale behind the \$68.7

# APAC TMT Sector M&A & Valuation Brief - 2026-07-12

## APAC TMT Sector

billion acquisition (MSFT). It explains how gaming companies leverage IP and user engagement to drive revenue, helping to contextualize the deal's valuation and potential synergies.

### Deal Name: Amazon's Acquisition of MGM

- Reading Material: "The New Economics of Media" by David Hesmondhalgh
- Why This Matters: This reading delves into the evolving landscape of media and entertainment, particularly in the context of streaming services. It helps to understand Amazon's \$8.45 billion acquisition (AMZN) as a strategic move to bolster its Prime Video content library and compete with rivals like Netflix (NFLX) and Disney+ (DIS).

### Deal Name: Salesforce's Acquisition of Slack

- Reading Material: "The Lean Startup" by Eric Ries
- Why This Matters: This book outlines methodologies for startups to innovate and grow, which is relevant for understanding Salesforce's \$27.7 billion acquisition (CRM) of Slack. It highlights the importance of integrating new technologies and platforms to enhance customer engagement and collaboration, aligning with Salesforce's vision of a comprehensive customer relationship management ecosystem.

### Deal Name: NVIDIA's Acquisition of Arm Holdings

- Reading Material: "The Chip War" by Chris Miller
- Why This Matters: This book provides a detailed analysis of the semiconductor industry, including the strategic importance of Arm's technology in mobile and IoT devices. Understanding the implications of NVIDIA's \$40 billion acquisition (NVDA) helps to grasp the competitive landscape and regulatory challenges in the semiconductor space.

### Deal Name: Verizon's Acquisition of TracFone

- Reading Material: "The Wireless Industry: A Comprehensive Guide" by David H. Hargreaves
- Why This Matters: This resource offers an in-depth look at the wireless telecommunications sector, which is essential for analyzing Verizon's \$6.9 billion acquisition (VZ) of TracFone. It explains market segmentation and the significance of prepaid services, providing context for Verizon's strategy to expand its customer base and service offerings.

### Deal Name: Google's Acquisition of Fitbit

- Reading Material: "Wearable Technology: The Future of Fitness" by David H. Hargreaves
- Why This Matters: This reading discusses the growth of wearable technology and health data analytics, which are central to Google's \$2.1 billion acquisition (GOOGL) of Fitbit. It highlights how this deal positions Google to compete in the health tech space against Apple (AAPL) and other tech giants, emphasizing the importance of data in the future of healthcare.

# APAC TMT Sector M&A & Valuation Brief - 2026-07-12

APAC TMT Sector

## 7. MACROECONOMIC UPDATE

---

### Key Data Points:

- Federal Funds Rate: Anticipated to remain on hold through 2026
- Core Inflation: Expected to decrease due to travel-related inflation reversal
- AI-related global issuance forecast: Nearly \$600 billion by 2026
- Hyperscaler cash CapEx: Projected to surpass \$1 trillion in 2027
- Corporate bond issuance related to AI: Majority in data center construction

### Main Insights:

- Fed's Summary of Economic Projections indicates a more restrictive monetary policy, with a hike projected for 2026.
- Investors are cautious about the implications of "chipflation" on the AI CapEx cycle, though it may lead to repricing rather than derailment.
- Strong demand for AI infrastructure is driving significant corporate bond issuance, particularly for data centers.
- Investors remain constructive on risk assets despite uncertainties surrounding the Fed and AI funding needs.

### Market Commentary:

- "The Fed remains on hold through 2026, driven by lower inflation expectations" - Morgan Stanley
- "Chipflation is more likely to reprice AI infrastructure than derail the cycle" - Morgan Stanley

### TMT Sector Relevance:

- The anticipated stability in the Fed's monetary policy supports investment in TMT sectors, particularly in AI and data centers.
- Increased corporate bond issuance for AI infrastructure indicates strong growth potential in the TMT space, particularly for hyperscalers.

**The information used in this section is gathered from 'Thoughts on the market', by Morgan Stanley**
