1. PRIMARY MARKET ANALYSIS - EUROPE REGION

Week of 2026-07-26 to 2026-08-02

Executive Summary

This week saw a notable uptick in M&A activity across various sectors, particularly in TMT and Energy. The total deal value reached approximately \$28.5 billion, driven by significant transactions such as the GBP5.75 billion acquisition of DCC by KKR and Energy Capital Partners and Uniper's long-term LNG supply agreement valued at \$30 billion. The TMT sector continued to show resilience with strategic acquisitions aimed at enhancing technological capabilities, while the Energy sector focused on securing long-term supply agreements amid rising gas prices and geopolitical tensions. Overall, the market sentiment remains cautiously optimistic, with investors keenly observing regulatory developments and economic indicators that may influence future deal-making.

- Regulatory-Driven Transactions: Energy acquisitions are increasingly influenced by regulatory changes and the need for compliance.

IPO Activity

- Number of IPOs: 0
- Total IPO proceeds: Not applicable
- Key IPOs: None reported this week.

2. SECONDARY MARKET ANALYSIS - EUROPE REGION

Week of 2026-07-26 to 2026-08-02

Executive Summary

The macroeconomic landscape this week reflected mixed signals, with key indicators showing resilience amid ongoing economic uncertainties. The ECB's focus on energy shocks driving inflation continues to shape market sentiment, while energy prices are expected to remain elevated due to geopolitical tensions. Overall, the market sentiment remains cautiously optimistic, influenced by regulatory developments and macroeconomic indicators.

Key Macroeconomic Metrics

Metric	Start of Week	End of Week	Change	% Change
ECB Rate	3.00%	3.00%	0 bps	0.00%

Industry	Industry Index	1,250	1,240	-0.80%	-1.24%

Week-over-Week Analysis

- Biggest Movers:
- TMT sector showed the strongest performance with a +1.67% increase, driven by positive sentiment around AI and tech investments.
- Energy sector faced a decline of -0.77%, reflecting ongoing concerns about regulatory impacts and market volatility.
- Correlation with Primary Market Activity: The positive sentiment in TMT correlates with the high number of strategic acquisitions in the sector, while the energy sector's decline reflects the challenges faced by companies amid fluctuating oil prices.

Market Sentiment Indicators

- Overall Sentiment: Cautiously optimistic, with investors focusing on technological advancements and regulatory developments.
- Volatility Trends: The VIX index remained stable, indicating low volatility expectations in the near term.
- Credit Market Conditions: Credit spreads remained tight, reflecting healthy investor appetite for risk.

Regional Economic Context

- Policy Developments: Ongoing discussions around energy policy and potential changes to the EU's energy strategy are influencing market sentiment.
- Regulatory Changes: Increased scrutiny on tech and energy sectors is impacting M&A activity and valuations.
- Geopolitical Factors: Global economic conditions, including inflation and trade tensions, continue to pose risks to market stability.

Correlation Analysis: Primary vs Secondary Markets

- The strong performance in the TMT sector aligns with increased M&A activity and investor confidence

Europe All Sector M&A & Valuation Sector - 2026-08-02

Europe ALL Sector

in technology-driven growth. Conversely, the energy sector's struggles reflect broader economic uncertainties and regulatory challenges impacting deal-making.

3. WEEKLY INSIGHTS & OUTLOOK - EUROPE REGION

Key Takeaways

- The total deal value across sectors reached approximately \$50.5 billion, with significant activity in TMT and Energy.
- Uniper's long-term LNG supply agreement and DCC's acquisition highlight strategic moves to enhance operational capabilities and energy security.
- Market sentiment remains cautiously optimistic, influenced by regulatory developments and macroeconomic indicators.
- The TMT sector continues to command higher valuation multiples, reflecting strong growth prospects.
- Regulatory scrutiny in energy and consumer sectors poses challenges to M&A activity.

Sector Performance Ranking

1. TMT - Strong deal activity and positive sentiment.
2. Energy - Focus on securing long-term supply agreements amid rising prices.
3. Consumer - Strategic partnerships aimed at enhancing operational capabilities.
4. Industry - Continued consolidation and strategic investments in technology.
5. Healthcare - No significant M&A activity reported this week.

Market Implications

- The week's activity sets a positive tone for continued M&A in the TMT sector, with potential for further consolidation in Energy.
- Investors should remain vigilant regarding regulatory developments that may impact deal-making and valuations, particularly in the energy and consumer sectors.

Risks & Opportunities

- Risks: Regulatory scrutiny and economic uncertainties could hinder M&A activity and impact market valuations.
- Opportunities: High-growth sectors such as TMT and Energy present attractive investment opportunities, particularly in AI and technology-driven solutions.

Europe All Sector M&A & Valuation Sector - 2026-08-02

Europe ALL Sector

In conclusion, the European market is navigating a complex landscape characterized by both opportunities and challenges. By focusing on technological advancements and understanding market dynamics, investors and bankers can position themselves for success in this evolving environment.
