1. PRIMARY MARKET ANALYSIS - APAC REGION

Week of 2026-05-17 to 2026-05-24

Executive Summary

This week in the APAC region saw a robust uptick in M&A activity across various sectors, particularly in TMT and Healthcare, with total deal values reaching approximately \$5.2 billion. The TMT sector led the charge with significant transactions aimed at enhancing technological capabilities, while the Healthcare sector focused on strategic acquisitions to expand infrastructure. Overall, market sentiment remains cautiously optimistic, driven by strong investor interest in technology and healthcare, despite ongoing regulatory scrutiny in the Energy sector.

Sector Index Performance

APAC All Sector M&A & Valuation Sector - 2026-05-24

APAC ALL Sector

Sector	Index	Start	End	% Change	vs Market
TMT	TMT Index	1,300	1,320	+1.54%	+0.85%
Healthcare	Healthcare Index	1,100	1,105	+0.45%	-0.04%
Energy	Energy Index	1,200	1,190	-0.83%	-1.32%
Consumer	Consumer Index	1,150	1,160	+0.87%	+0.18%
Industry	Industry Index	1,250	1,240	-0.80%	-1.29%

Week-over-Week Analysis

- Biggest Movers:
- TMT sector showed the strongest performance with a +1.54% increase, driven by positive sentiment around technology investments.
- Energy sector faced a decline of -0.83%, reflecting ongoing concerns about regulatory impacts and market volatility.
- Correlation with Primary Market Activity: The positive sentiment in TMT correlates with the high number of strategic acquisitions in the sector, while the energy sector's decline reflects the challenges faced by companies amid fluctuating energy prices.

Market Sentiment Indicators

- Overall Sentiment: Cautiously optimistic, with investors focusing on technological advancements and regulatory developments.
- Volatility Trends: The VIX index remained stable, indicating low volatility expectations in the near term.
- Credit Market Conditions: Credit spreads remained tight, reflecting healthy investor appetite for risk.

Regional Economic Context

- Policy Developments: Ongoing discussions around energy policy and potential changes to environmental regulations are influencing market sentiment.
- Regulatory Changes: Increased scrutiny on tech and healthcare sectors is impacting M&A activity and valuations.
- Geopolitical Factors: Global economic conditions, including inflation and trade tensions, continue to pose risks to market stability.

Correlation Analysis: Primary vs Secondary Markets

The strong performance in the TMT sector aligns with increased M&A activity and investor confidence in technology-driven growth. Conversely, the energy sector's struggles reflect broader economic uncertainties and regulatory challenges impacting deal-making.

APAC All Sector M&A & Valuation Sector - 2026-05-24

APAC ALL Sector

3. WEEKLY INSIGHTS & OUTLOOK - APAC REGION

Key Takeaways

- The total deal value across sectors reached approximately \$5.2 billion, with significant activity in TMT and Healthcare.
- TechCorp's acquisition of DataSolutions and HealthGroup's acquisition of MedTech Innovations highlight strategic moves to enhance operational capabilities.
- Market sentiment remains cautiously optimistic, influenced by regulatory developments and macroeconomic indicators.
- The TMT sector continues to command higher valuation multiples, reflecting strong growth prospects.
- Regulatory scrutiny in energy and healthcare sectors poses challenges to M&A activity.

Sector Performance Ranking

1. TMT - Strong deal activity and positive sentiment.
2. Healthcare - Focus on infrastructure expansion and technology integration.
3. Energy - Mixed performance with significant acquisitions but regulatory challenges.
4. Consumer - Limited deal activity but stable growth prospects.
5. Industry - Struggles with regulatory scrutiny and economic volatility.

Market Implications

- The week's activity sets a positive tone for continued M&A in the TMT sector, with potential for further consolidation in Healthcare.
- Investors should remain vigilant regarding regulatory developments that may impact deal-making and valuations, particularly in the energy and healthcare sectors.

Risks & Opportunities

- Risks: Regulatory scrutiny and economic uncertainties could hinder M&A activity and impact market valuations.
- Opportunities: High-growth sectors such as TMT and Healthcare present attractive investment opportunities, particularly in AI and technology-driven solutions.

In conclusion, the APAC market is navigating a complex landscape characterized by both opportunities and challenges. By focusing on technological advancements and understanding market dynamics, investors and bankers can position themselves for success in this evolving environment.
