1. 30-Second TL;DR

- McKinley Acquisition Corp. is merging with Space-Eyes for \$638 million to enhance AI-driven counter-drone technology.
- SEALSQ acquired Miraex to advance its quantum photonics capabilities, although deal specifics are undisclosed.
- The TMT sector shows cautious optimism with an average EV/EBITDA multiple of 15.5x, driven by growth in AI and software, while traditional sectors face challenges.

2. 1-Minute TL;DR

- McKinley Acquisition Corp. announced a \$638 million merger with Space-Eyes, focusing on AI-driven counter-drone technology and geospatial intelligence, aiming to strengthen defense capabilities.
- SEALSQ's acquisition of Miraex aims to integrate quantum photonics into its offerings, enhancing its position in the quantum technology market, though financial details remain undisclosed.
- The TMT sector is characterized by cautious optimism, with an average EV/EBITDA multiple of 15.5x. High-growth areas like software (20.3x) and AI (22.5x) attract investor interest, while traditional sectors like telecom (9.8x) and media (12.1x) lag due to slower growth.
- Market dynamics are influenced by technological advancements, regulatory scrutiny, and economic uncertainties, shaping future M&A activities.

3. 2-Minute TL;DR

- McKinley Acquisition Corp. is merging with Space-Eyes in a \$638 million deal to leverage AI-driven counter-drone technology and geospatial intelligence. This merger aims to enhance operational capabilities in defense and security sectors, although it faces risks like integration challenges and regulatory approvals.
- SEALSQ's acquisition of Miraex, a Swiss firm specializing in quantum photonics, is pivotal for integrating advanced technology into its Quantum Sovereign Vertical Stack, positioning SEALSQ as a
