1. 30-Second TL;DR

- Space-Eyes is merging with McKinley Acquisition Corp. for \$638 million to enhance AI-driven defense technology.
- SEALSQ Corp acquired Miraex SA to integrate quantum photonics, although deal size is undisclosed.
- The TMT sector shows cautious optimism with an average EV/EBITDA multiple of 15.5x, driven by AI and semiconductor advancements, but tempered by regulatory scrutiny and economic uncertainties.

2. 1-Minute TL;DR

- Space-Eyes and McKinley Acquisition Corp. announced a merger valued at \$638 million, aiming to leverage AI for counter-drone technology and geospatial intelligence. The deal reflects strong investor confidence in AI-driven defense systems.
- SEALSQ Corp's acquisition of Miraex SA focuses on integrating quantum photonics technology, positioning SEALSQ as a leader in the quantum market, although specific financials are not disclosed.
- The TMT sector is characterized by cautious optimism, with an average EV/EBITDA multiple of 15.5x. High-growth areas like AI (22.5x) and software (20.3x) command premiums, while traditional sectors like telecom (9.8x) face challenges.
- Market dynamics are influenced by technological advancements and regulatory scrutiny, shaping future M&A activities.

3. 2-Minute TL;DR

- Space-Eyes is merging with McKinley Acquisition Corp. in a deal valued at \$638 million, aimed at enhancing AI-driven counter-drone technology and geospatial intelligence. The merger is expected to accelerate growth and expand customer deployments, addressing rising demand for AI-enabled defense systems. Risks include regulatory challenges and reliance on government contracts.
- SEALSQ Corp's acquisition of Miraex SA, specializing in quantum photonics, is a strategic move to bolster its capabilities in secure quantum communications. Although the deal size is not specified, it

US TMT Sector M&A & Valuation TLDR - 2026-08-04

US TMT Sector

positions SEALSQ as a leader in the emerging quantum technology market.

- The TMT sector is navigating a landscape of cautious optimism, with an average EV/EBITDA multiple of 15.5x. High-growth sectors like AI and software are attracting investor interest, while traditional sectors like telecom and media are trading at lower multiples due to slower growth prospects.
- Key market drivers include technological advancements and strong investment activity, particularly in tech and fintech. However, headwinds consist of regulatory scrutiny and economic uncertainties, which may impact M&A activities.
- Analysts predict continued consolidation in the sector, emphasizing the importance of focusing on high-growth areas and monitoring regulatory developments to navigate the evolving landscape effectively.
