1. PRIMARY MARKET ANALYSIS - APAC REGION

Week of 2026-04-26 to 2026-05-03

Executive Summary

This week in the APAC region saw minimal M&A activity across all sectors, with no significant deals reported. The TMT sector remained stable, characterized by ongoing technological advancements and regulatory scrutiny, while the Healthcare, Energy, Consumer, and Industry sectors did not report any notable transactions. The overall market sentiment was cautious, influenced by geopolitical tensions and mixed economic indicators. Investors are closely monitoring developments in the Iran conflict, which has implications for energy prices and broader market stability.

2. SECONDARY MARKET ANALYSIS - APAC REGION

Week of 2026-04-26 to 2026-05-03

Executive Summary

The macroeconomic landscape in the APAC region this week was marked by mixed signals, with geopolitical tensions surrounding the Iran conflict impacting market sentiment. Asian stock indices exhibited volatility, with some markets retreating from recent highs. Oil prices continued to rise due to uncertainties in the Middle East, contributing to inflationary pressures across the region.

Week-over-Week Analysis

- Biggest Movers: No significant movements were reported due to the absence of deal activity.
- Correlation with Primary Market Activity: The lack of M&A activity reflects broader market uncertainties influenced by geopolitical tensions.

Market Sentiment Indicators

- Overall Sentiment: Cautiously optimistic, with investors focusing on geopolitical developments and their potential impact on market stability.
- Volatility Trends: The VIX index remained stable, indicating low volatility expectations in the near term.
- Credit Market Conditions: Credit spreads remained tight, reflecting a healthy investor appetite for risk despite geopolitical concerns.

Regional Economic Context

- Policy Developments: Ongoing discussions regarding the Iran conflict and its implications for energy markets are influencing investor sentiment.
- Regulatory Changes: Increased scrutiny on tech and healthcare sectors continues to impact market dynamics.
- Geopolitical Factors: The Iran conflict remains a significant concern, affecting oil prices and broader market stability.

Correlation Analysis: Primary vs Secondary Markets

APAC All Sector M&A & Valuation Sector - 2026-05-03

APAC ALL Sector

- The absence of primary market activity aligns with the cautious sentiment observed in the secondary markets, as investors remain vigilant regarding geopolitical developments and their potential impact on valuations.

3. WEEKLY INSIGHTS & OUTLOOK - APAC REGION

Key Takeaways

- The week was characterized by a complete absence of M&A activity across all sectors in the APAC region.
- Geopolitical tensions, particularly the Iran conflict, continue to influence market sentiment and energy prices.
- Asian stock indices exhibited volatility, with some markets retreating from recent highs.
- Investors are closely monitoring developments in the Iran conflict, which has implications for inflation and market stability.
- Regulatory scrutiny in the TMT sector is impacting M&A activity and investor confidence.

Sector Performance Ranking

1. TMT - Stable but no new deals reported.
2. Healthcare - No significant activity, reflecting a cautious market environment.
3. Energy - Influenced by geopolitical tensions but no new transactions.
4. Consumer - Quiet week with no reported deals.
5. Industry - No activity reported, reflecting broader market uncertainties.

Market Implications

- The lack of deal activity this week suggests a cautious approach from investors, with potential implications for future M&A activity as geopolitical tensions persist.
- Investors should remain vigilant regarding regulatory developments that may impact market dynamics, particularly in the TMT and healthcare sectors.

Risks & Opportunities

- Risks: Geopolitical uncertainties and regulatory scrutiny could hinder M&A activity and impact market valuations.
- Opportunities: Continued focus on technological advancements and strategic investments in
