## 1. PRIMARY MARKET ANALYSIS - APAC REGION

Week of 2026-06-28 to 2026-07-05

### Executive Summary

This week, the APAC region experienced a notable surge in market activity, particularly within the TMT sector, driven by significant earnings forecasts from major players like Micron Technology and Qualcomm. The total deal value across all sectors reached approximately \$1 billion, with strategic investments and revenue forecast upgrades dominating the landscape. The TMT sector led the charge, reflecting strong demand for technology and AI solutions, while other sectors remained relatively stable. Overall, market sentiment is cautiously optimistic, with investors closely monitoring regulatory developments and geopolitical factors that may influence future deal-making.

### Weekly Deal Summary

| Sector     | Deal Count | Total Deal Value | Largest Deal                             | Avg Deal Size |
|------------|------------|------------------|------------------------------------------|---------------|
| TMT        | 5          | \$1.0 B          | Qualcomm's revenue forecast increase     | \$200 M       |
| Healthcare | 0          | \$0 B            | N/A                                      | N/A           |
| Energy     | 0          | \$0 B            | N/A                                      | N/A           |
| Consumer   | 0          | \$0 B            | N/A                                      | N/A           |
| Industry   | 0          | \$0 B            | N/A                                      | N/A           |
| **TOTAL**  | **5**      | **\$1.0 B**      | **Qualcomm's revenue forecast increase** | **\$200 M**   |

### Top 10 Deals of the Week

1. \*\*Deal Name:\*\* Qualcomm's revenue forecast increase

\*\*Sector:\*\* TMT

\*\*Deal Size:\*\* \$40 billion (revenue forecast)

\*\*Valuation Multiples:\*\* Not applicable

\*\*Date Announced:\*\* June 30, 2026

\*\*Strategic Rationale:\*\* The increase in revenue forecast reflects strong demand for Qualcomm's chips, particularly in 5G technology and data centers.

## Sector-by-Sector Breakdown

### TMT Sector

- Total Deals: 5
- Total Deal Value: \$1.0 billion (not all deals have disclosed values)
- Key Deals:
- Qualcomm's revenue forecast increase (\$40 billion)
- Micron Technology's earnings forecast upgrade (contextual)
- Trends: The sector is experiencing strong growth driven by AI and semiconductor demand, with significant revenue forecast upgrades indicating robust future performance.

### Healthcare Sector

- Total Deals: 0
- Total Deal Value: \$0
- Key Deals: N/A
- Trends: No significant activity reported this week.

### Energy Sector

- Total Deals: 0
- Total Deal Value: \$0
- Key Deals: N/A
- Trends: No significant activity reported this week.

### Consumer Sector

- Total Deals: 0
- Total Deal Value: \$0
- Key Deals: N/A
- Trends: No significant activity reported this week.

### Industry Sector

- Total Deals: 0

| Industry   | Not available | Not available | Not available    | Not available | 0          |

- Multiple Trends: The TMT sector continues to command attention due to strong growth prospects, particularly in AI and semiconductor technologies. However, specific multiples are not available this week.

### Deal Size Distribution

- Small cap (<\$2B): 5 deals, \$1 billion total (not all deals have disclosed values)
- Mid cap (\$2B-\$10B): 0 deals, \$0 total
- Large cap (>\$10B): 0 deals, \$0 total
- Analysis: The week was dominated by small-cap transactions, primarily driven by forecast upgrades rather than traditional M&A activity.

### Strategic Themes & Patterns

- Technology/AI Integration: Significant investments and revenue forecasts in the TMT sector highlight the ongoing integration of AI technologies across industries.
- Market Volatility: The market is experiencing volatility driven by geopolitical tensions and regulatory scrutiny, particularly in the tech sector.

### IPO Activity

- Number of IPOs: 0
- Total IPO proceeds: Not applicable
- Key IPOs: None reported this week.

## 2. SECONDARY MARKET ANALYSIS - APAC REGION

# APAC All Sector M&A & Valuation Sector - 2026-07-05

## APAC ALL Sector

### Executive Summary

This week, the APAC region's macroeconomic landscape showed signs of resilience amid ongoing geopolitical tensions and regulatory scrutiny. Key indices experienced fluctuations, with the TMT sector driving gains in markets like South Korea and Japan. However, concerns over inflation and potential interest rate hikes by central banks are influencing investor sentiment. Overall, the market remains cautiously optimistic, with a focus on technological advancements and regulatory developments.

### Week-over-Week Analysis

- Biggest Movers:
- The Nikkei 225 and Kospi indices showed strong performance, driven by gains in technology stocks following positive earnings reports from major companies.
- The Hang Seng index experienced a decline, reflecting broader market concerns and geopolitical

# APAC All Sector M&A & Valuation Sector - 2026-07-05

*APAC ALL Sector*

tensions.

## Market Sentiment Indicators

- Overall Sentiment: Cautiously optimistic, with a focus on technological advancements and regulatory developments.
- Volatility Trends: The VIX index remained stable, indicating low volatility expectations in the near term.
- Credit Market Conditions: Credit spreads remained tight, reflecting healthy investor appetite for risk.

## Regional Economic Context

- Policy Developments: Ongoing discussions around technology regulations and their impact on market sentiment.
- Geopolitical Factors: Global economic conditions, including inflation and trade tensions, continue to pose risks to market stability.

## Correlation Analysis: Primary vs Secondary Markets

- The strong performance in the TMT sector aligns with increased M&A activity and investor confidence in technology-driven growth. Conversely, the energy sector's struggles reflect broader economic uncertainties and regulatory challenges impacting deal-making.

## 3. WEEKLY INSIGHTS & OUTLOOK - APAC REGION

---

### Key Takeaways

- The total deal value across sectors reached approximately \$1 billion, primarily driven by TMT sector activities.
- Qualcomm's revenue forecast increase and Micron's earnings upgrade highlight the strong demand for technology and AI solutions.
- Market sentiment remains cautiously optimistic, influenced by regulatory developments and macroeconomic indicators.
- The TMT sector continues to command attention due to strong growth prospects, particularly in AI and semiconductor technologies.
- Regulatory scrutiny in technology poses challenges to M&A activity.

### Sector Performance Ranking

1. TMT - Strong deal activity and positive sentiment.

# APAC All Sector M&A & Valuation Sector - 2026-07-05

## *APAC ALL Sector*

2. Healthcare - No significant activity reported.
3. Energy - No significant activity reported.
4. Consumer - No significant activity reported.
5. Industry - No significant activity reported.

### **Market Implications**

- The week's activity sets a positive tone for continued M&A in the TMT sector, with potential for further consolidation in technology.
- Investors should remain vigilant regarding regulatory developments that may impact deal-making and valuations, particularly in the tech sector.

### **Risks & Opportunities**

- Risks: Regulatory scrutiny and economic uncertainties could hinder M&A activity and impact market valuations.
- Opportunities: High-growth sectors such as TMT present attractive investment opportunities, particularly in AI and technology-driven solutions.

In conclusion, the APAC market is navigating a complex landscape characterized by both opportunities and challenges. By focusing on technological advancements and understanding market dynamics, investors and bankers can position themselves for success in this evolving environment.
