CONFIDENTIAL - FOR INTERNAL USE ONLY

1. 30-Second TL;DR

- The Energy sector has seen no recent M&A activity, attributed to market volatility and regulatory scrutiny.
- Oil & Gas faces challenges with U.S. crude exports declining, while Renewable Energy continues to grow amid investment influx.
- Average EV/EBITDA multiples are 8.5x, with Oil & Gas at 6.3x and Renewable Energy at 15.1x, indicating a premium for growth sectors.
- Investors should focus on renewable investments and monitor geopolitical developments.

2. 1-Minute TL;DR

- Recent M&A activity in the Energy sector is stagnant, with no deals reported due to market volatility and regulatory challenges.
- The Oil & Gas subsector is under pressure, marked by a significant drop in U.S. crude exports, while Renewable Energy is thriving with increased investments.
- The average EV/EBITDA multiple for the Energy sector is 8.5x, with Oil & Gas at 6.3x and Renewable Energy at 15.1x, reflecting investor preference for growth.
- Analysts suggest focusing on renewable investments and staying informed about geopolitical shifts, particularly in U.S.-Iran relations, which could impact oil supply dynamics.

3. 2-Minute TL;DR

- The Energy sector is currently experiencing a lack of M&A activity, attributed to market volatility, regulatory scrutiny, and strategic reevaluation by companies. This cautious approach has shifted focus towards organic growth strategies.
- The Oil & Gas subsector is facing significant challenges, with U.S. crude oil exports dropping from 5.7 million bpd in May to 3.66 million bpd in July, largely due to geopolitical factors. In contrast, the

Europe Energy Sector M&A & Valuation TLDR - 2026-08-05

Europe Energy Sector

Renewable Energy sector is growing, driven by technological advancements and increased investment.

- The average EV/EBITDA multiple for the Energy sector stands at 8.5x, with notable variations: Oil & Gas at 6.3x, Renewable Energy at 15.1x, Utilities at 12.8x, and Solar & Wind at 18.5x. These multiples indicate a premium for high-growth sectors.

- Investors are advised to prioritize renewable investments and monitor geopolitical developments, especially regarding U.S.-Iran relations, which could reshape oil supply dynamics. The energy landscape is evolving, with opportunities in renewable sectors and challenges in traditional oil and gas markets.
