1. 30-Second TL;DR

- Brady Corporation acquired Honeywell's PSS business for \$1.4 billion, enhancing its industrial tech capabilities and targeting \$25 million in cost synergies.
- Palomino Laboratories acquired Vega Links to strengthen its AI interconnect technology, expanding its market potential to over \$60 billion.
- The TMT sector shows cautious optimism with an average EV/EBITDA multiple of 15.5x, driven by tech advancements, while traditional sectors face challenges from regulatory scrutiny and economic uncertainties.

2. 1-Minute TL;DR

- Brady Corporation's \$1.4 billion acquisition of Honeywell's PSS business aims to create a leading industrial technology company, enhancing capabilities in mobile computing and workflow software, with expected earnings accretion and significant cost synergies.
- Palomino Laboratories' acquisition of Vega Links focuses on advancing AI interconnect technology, positioning it for growth in a \$60 billion market.
- The TMT sector is characterized by cautious optimism, with an average EV/EBITDA multiple of 15.5x. High-growth areas like software (20.3x) and AI (22.5x) attract premiums, while traditional sectors like telecom (9.8x) and media (12.1x) face slower growth.
- Market dynamics are influenced by technological advancements and regulatory scrutiny, shaping future M&A activities.

3. 2-Minute TL;DR

- Brady Corporation's acquisition of Honeywell's PSS business for \$1.4 billion is a strategic move to enhance its industrial technology capabilities, particularly in mobile computing and RFID solutions. The deal is expected to be immediately accretive to earnings, adding approximately \$0.80 to Adjusted Diluted EPS in the first year, with plans for \$25 million in annual run-rate cost synergies within three years. However, integration risks and regulatory challenges may arise.

US TMT Sector M&A & Valuation TLDR - 2026-08-05

US TMT Sector

- Palomino Laboratories' acquisition of Vega Links aims to strengthen its position in AI interconnect technology, expanding its addressable market to over \$60 billion. This move combines Palomino's GaN MicroLED technologies with Vega's expertise, enhancing capabilities for next-generation AI solutions.
- The TMT sector is navigating a landscape of cautious optimism, with an average EV/EBITDA multiple of 15.5x. High-growth sectors like software (20.3x) and AI (22.5x) are attracting investor interest, while traditional sectors like telecom (9.8x) and media (12.1x) are trading lower due to slower growth prospects.
- Key market drivers include technological advancements and robust investment in tech and fintech, while headwinds consist of regulatory scrutiny and economic uncertainties. Analysts predict continued consolidation in the sector, emphasizing the importance of strategic partnerships and acquisitions for growth.
